farmer living about five miles southwest

of Neenah, that he has been hitching four of his seven children to a corn plow or cultivator, which he compelled them to drag through a ten-acre truck garden while he guided it. Farmers in the vicinity and persons from Oshkosh riding along the highway in carriages and automobiles have witnessed the strange sight. The attention of the authorities was called to the matter and after securing substantiation of the facts, Dr. Wilkle, of this city, agent of the Fox River Valley Humane Society, went to the farmer and compelled him to send five of the children to school. Five are of school age. The farmer, it is alleged, was rearing them in ignorance. The majority of the children are girls. The oldest is not over fourteen years of age.

Dr. Wilkle says that the plow had harness attached to it which were put about the shoulders of the children.

FIVE THOUSAND

Secret Police Killed.

(By Associated Press.)

MOSCOW, May 25, During a meeting to-day of revolutionary workmen in a wood in the outskirts of Moscow, two members of the secret police were discovered among the attendants. A court was immediately organized, before which the men were tried and condemned to death. As soon as sentence had been passed upon the men, they were tied to trees and shot to death. Only Small Portion of the Sum Needed Has Yet Been Raised.

It was inadvertently stated yesterday that \$50,000 was raised at a meeting of a few members of the Chamber of Commerce for the purpose of advertising "Greater Richmond." Of course, the sum raised in five minutes should have been five thousand and not fifty thousand. The context plainly showed that five thousand was meant where fifty thousand was written.

ten.

The Chamber decided that the sum of \$30,000 is needed for advertising purposes, and a committee was appointed to raise this amount. The committee went to work at once, and before leaving the room received pledges for \$5,000 (not fifty thousand). This leaves \$25,000 to be raised, and the committee is now hustling for that amount.

It is probable that Judge Brooke will make the first speech of the campaign, but he said to-day that he has not yet determined just when or where he would first address the voters. However, he desired to make it at a place and time convenient for both Messrs. Maynard and Cabell to be present. The Judge saluthat he did not know that there would be any joint campaign discussion, but that he is entirely willing that there should be, should the other candidates desire it.

WONDERFUL CURE BY CUTICURA REMEDIES

"Last year at this time I suffered with a tremendous itching on my back, which grew worse and worse, until it spread over the whole body, and only my face and hands were free. For four months or so I suffered the torments of the damned, and I had to scratch, scratch, scratch, until I bled. At night when I went to bed things got worse, and I had at times to get up and scratch my body all over, until I was as sore as could be, and until I was as sore as could be, and until I suffered excruciating pains. I did not know what it was, and resorted to a number of blood purifiers, using at times also Cuticura Soap. They told me then that I was suffering from eezems. Then I made up my mind that I would also use Cuticura Ointment and Cuticura Resolvent. I used them according to instructions, and very soon indeed I was greatly relieved.
